

Super Social Skills Group

Children 6 to 9 years of age

This winter have your child join Superflex the Superhero as he saves Social Town from the Team of Unthinkables! Your child will defend their social skills from villains such as inflexible thinking, over reacting to situations, and personal space invaders. Learn new ways to cope in social situations with strategies such as flexible thinking, thinking about others, and keeping your body and brain in the group.

Who should attend? This program is designed for children with social and communication difficulties including but not limited to children who are diagnosed with pragmatic language disorder, Asperger Syndrome, ADHD, High Functioning Autism, etc.

Superflex is a Social Thinking Curriculum by Stephanie Madrigal and Michelle Garcia Winner. It is an engaging curriculum that helps children learn about their own social behavior and gives them strategies on how to regulate it.

This group will consist of *4 to 6 children*. It is conducted by our speech-language pathologist Lisa Kosnik who has extensive experience running groups with children who have social and language delays.

Time: Tuesdays 4:30 to 5:30p
January 10th through February 28th
